Combination Drug Treatments for HIV

For these questions "combination drug treatments" refers to combinations of drugs—including protease inhibitors—used to keep people who are already infected with HIV from getting sick with AIDS. In addition, these drugs may also be used by an HIV negative person following a possible exposure to HIV (e.g., through unsafe sex or needle sharing) to try and prevent infection with HIV. This is called "post-exposure prevention," or PEP for short.

1. How much have you heard about the use of combination drug treatments to keep people with HIV from getting sick?
   - nothing
   - a little
   - some
   - quite a bit
   - a lot

2. How many people do you know with HIV who have taken combination drug treatments?
   - none
   - 1 or 2
   - 3 or more

3. How much have you heard about using combination drug treatments to try to prevent infection after a possible exposure to HIV (PEP)?
   - nothing
   - a little
   - some
   - quite a bit
   - a lot

4. How many people do you know who have used combination drug treatments to try to prevent infection after a possible exposure to HIV (PEP)?
   - none
   - 1 or 2
   - 3 or more

5. Have you ever used combination drug treatments to try to prevent infection after a possible exposure to HIV (PEP)?
   - no
   - yes

A. . . . gotten drunk or "high" on alcohol?

B. . . . used poppers?

C. . . . used drugs other than alcohol or poppers?

---

8A. What is your primary partner’s HIV status?

- ○ HIV negative
- ○ HIV positive
- ○ I do not know

If your primary partner is HIV+...

B. Is he currently taking combination treatments?

- ○ no
- ○ yes
- ○ I don’t know

C. What is his viral load?

- ○ undetectable
- ○ detectable
- ○ I don’t know

---

9A. Have you disclosed your HIV status to your primary partner?

- ○ no
- ○ yes

If you are HIV+...

B. Have you told your primary partner whether you are taking combination treatments?

- ○ no
- ○ yes

C. Have you told your partner your viral load?

- ○ no
- ○ yes
- ○ I don’t know my viral load

---

10A. Have you and your partner discussed rules for sex with other people?

- ○ no
- ○ yes

If yes . . . does your agreement include: (Mark all that apply)

- ○ no sex outside the relationship
- ○ no oral sex with another man
- ○ no anal sex with another man
- ○ discussed topic, but no rules established
- ○ anal sex with others, but only with condom
- ○ other, please describe: ________________________

---

11. Has your primary partner had sex (sexual intercourse) with other men in the last 6 months?

- ○ no
- ○ yes
- ○ not sure
