The Department invites applications for a tenure track/tenured faculty position at the Associate/Full Professor level according to qualifications. It is expected that the individual will have experience in the design, conduct and analysis of cohort studies, and it is hoped that the person will lead initiatives in methodological and substantive areas of research in observational longitudinal studies and actively participate in all aspects of epidemiological research, including the development of new cohort studies initiatives. The successful candidate will work closely with a twenty-five person team (including seven faculty) of biostatisticians, epidemiologists, research coordinators and data analysts of ongoing cohort studies in HIV/AIDS, and will be involved in teaching and advising of graduate students. Position is available immediately. Candidates should send cover letter, curriculum vitae, and names of three references to:

Jonathan Samet, MD, MS
Professor and Chair, Department of Epidemiology
615 N. Wolfe Street, Baltimore, MD 21205
Inquiries for further information should be directed to Alvaro Muñoz, PhD, at (410) 955-4320, or epsearch@jhsph.edu, or go to http://www.statepi.jhsph.edu.

*Johns Hopkins is an equal opportunity employer and encourages applications from minority and female candidates.*
